Part I

Introduction

1 First, Let's Parse the Title

1.1 Convivial Perso-Arabic Script with Debian GNU/Linux

- Convivial: Not in the American/English sense of the word.

  In its Globish sense as introduced by Ivan Illich in "Tools For Conviviality".

  Expressing the correct relationship between "Tool User", "Tool" and "Tool Maker".

  In this context, in Geek lingo: emacs and TeX.

- Perso-Arabic Script: Text processing in:

  - The Persian family of languages: (Farsi, Dari, Urdu, Pashto/Afghanic, Sindhi, Kashmiri, Uighuric)
  - The Arabic family of languages: (Arabic, Maghribi, Jawi/Old-Malay)

- Debian GNU/Linux: A paricular rev./generation (Squeeze/6.0) providing a stable and consistent libre platform.
